

Science Knowledge Organiser: Animals including Humans

Key Vocabulary	
<i>amphibians</i>	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
<i>birds</i>	All birds have a beak, two legs, feathers and wings.
<i>fish</i>	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
<i>mammals</i>	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
<i>reptiles</i>	All reptiles breathe air. They have scales on their skin.
<i>carnivore</i>	Animals that mostly eat other animals (meat) are carnivores.
<i>herbivore</i>	Animals that only eat plants are herbivores.
<i>omnivore</i>	Animals that eat both plants and other animals are omnivores.

lizard

alligator

Amphibians

frog

toad

newt

salamander

Science is a way to understand our world by carefully thinking about it and testing our guesses with observations and experiments.

Science Knowledge Organiser: Animals including Humans

Key Vocabulary	
<i>sight</i>	Your eyes let you see all the things around you.
<i>hearing</i>	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
<i>touch</i>	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
<i>taste</i>	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
<i>smell</i>	You smell using your nose. Your nose can tell if things smell nice or not nice.
