ENVIRONMENTAL REVIEW

Well done, you have reached Step 2 of your Green Flag application. Your pupils and staff should all be proud of yourselves!

By now you should know what Eco-Schools is and the ten topics Eco-Schools focus on. You should also have elected an Eco-Committee (that has at least one child from each year group in it) and begun your Eco-Board.

Step 2 is an Environmental Review to identify the good things that your school is already doing for the environment. It will also help you to find things your school could work on to improve. We recommend you use your Environmental Review to decide on three topics (five for a Green Flag renewal) you want to target in Step 3 (your Action Plan), but it is up to your Eco-Committee which topics you choose.

The Environmental Review can be completed by either a class, the Eco-Committee or each topic could be given to a different class to involve the whole school. There are six questions to answer for each topic and a comments box to record any ideas you have or any important information you find during your Environmental Review. At the end of the review you can calculate your school's score out of 60 by giving a point for every yes that has been ticked. When you have worked on your Action Plan, you can answer the same questions again in the Monitoring and Evaluation stage (Step 6) and think about all the amazing things you have done on your Eco-School journey and the impact your actions have had on your school!

The Environmental Review has only three rules:

1. The questions have to be answered by children (they can ask a teacher for help if they need it).
2. You must answer every question.
3. You must inform the whole school about what you have discovered during your Environmental Review.

Good luck and have fun, you are amazing!

Please note:

The Environmental Review has been designed by teachers, to be completed by children. In no circumstances is it necessary for a school to pay for additional third-party support during any stage of a Green Flag application. If you do require support, please contact the Eco-Schools team and we will be happy to help.

When you have finished your Environmental Review you will need to display a copy on your Eco-Board. You will also be asked to submit a copy as evidence towards your Green Flag award.

Total score (out of 60)

Things we are doing well:

learning about different countries

Things we could be doing better:

our taps are not self stopping,
and we do not have a school
water meter.

Topics we want to work on during our Action Plan:

more work on waste and water.

Congratulations, you have completed your Environmental Review! The next step is your Action Plan. Don't forget to let your whole school know what you have found out.
